CAMPAIGN

Cheshire Homes

An awareness campaign highlighting the difficulties of the disabled. The emphasis of the campaign is placed on trolleys and wheelchairs, devices with very different uses, but which are strikingly similar. Trolleys can be compared with wheelchairs in the way which they are pushed, their size and how difficult and irritating they can be to use.

This project was supported by Pick 'n Pay and Sappi. It won a grant in the annual Sappi Ideas That Matter Awards. It was a finalist in the 2010 Loerie Awards.
